

The British Columbian.

SATURDAY, FEBRUARY 23, 1867.

LEGISLATIVE COUNCIL.

The House met at 2 o'clock on Wednesday. Present—Hon. the Colonial Secretary Attorney General, Chief Commissioner, Collector, Brew, Ball, Young, O'Reilly, Cox, McDonald, Sanders, Robson, Walkem, Helmcken, Barnard, Smith, Stamp, Pemberton, Southgate, and DeCosmos.

Colonial Secretary in the Chair. Minutes of last meeting read and confirmed.

Hon. Mr. Robson presented a petition from workmen upon the Smith Alexandria Road Contract, praying that their wages might be paid out of the balance of the contract money remaining in the hands of Government. After some discussion it was considered advisable that the parties should petition the Executive direct, and the Petition was accordingly withdrawn.

NOTICE OF MOTION.

Hon. Dr. Helmcken gave notice that he would on Thursday move for a Select Committee to revise the Customs Tariff.

ORDERS OF THE DAY.

Hon. Mr. Pemberton moved his resolution respecting the disposition of the Steam Dredger and Punt connected therewith.

Hon. Capt. Stamp in seconding the motion said, the Dredger was indispensable to the harbour of Victoria. And since the Dredger had been laid up the harbour had shallowed 3 to 4 feet.

Hon. Mr. Young explained that all the precautions suggested had been already taken by the Government. The resolution was, after some discussion, withdrawn.

Levees Bill, read a second time and committed.

Legal Professions Bill—Hon. Walkem asked leave to have this Bill laid over for a fortnight. Leave granted.

Intestate Bill, passed through Committee.

Game Bill, read a third time and passed.

Indian Graves Bill, read a third time and passed.

Postal Bill, committed. The discussion upon this Bill occupied nearly two hours. All the clauses were passed, some of them in an amended form, excepting clause 9, which fixes the rates of postage. It was decided to make it the schedule to the Bill and postpone its consideration.

Ferries Bill, passed through Committee, eliciting a good deal of discussion, especially that provision requiring persons who cross by their own conveyances to pay ferriage. The House did not rise till 7 o'clock.

House adjourned till 3 o'clock on Thursday.

THURSDAY'S SITTING.

The House met at 3 o'clock, all the members excepting the Hon. Solicitor General being present. Minutes of previous meeting read and confirmed.

NOTICES OF MOTION.

Hon. Mr. Pemberton gave notice of motion asking for explanation respecting discrepancy in Assay returns. Also for returns of seizures fines &c., under Customs Act.

ORDERS OF THE DAY.

Intestate Estates Bill, read a third time and passed.

Ferries and Bridges Bill. Hon. Mr. Walkem moved a recommission to insert a clause providing for persons using their own boats in crossing streams. The motion was ruled out of order and the Bill was read a third time and passed.

The Estimates. The House went into Committee of Supply. Hon. Mr. O'Reilly in the Chair. After considerable discussion about the mode of dealing with the Crown Salaries the committee proceeded to deal with the items in the Estimates.

The Governor's Department.—\$2,535, passed.

Legislative Council.—\$1,200, passed after some discussion.

Colonial Secretary's Department.—\$9,860, passed after considerable discussion.

The Assay Department.—A warm and lengthy debate took place as to the expediency of retaining or abolishing this establishment, which was only stopped by the Committee rising. Council adjourned till 1 o'clock on Friday.

FRIDAY'S SITTING.

All the members present excepting the Solicitor General. Colonial Secretary in the Chair. Minutes of last meeting read and confirmed.

ORDERS OF THE DAY.

Trades License Bill.—Second reading postponed for one week.

Victoria Incorporation Bill.—Second reading postponed until next Friday.

Mechanics Lien Law.—This Bill was read a first time, second reading fixed for this day fortnight.

Hon. Mr. Helmcken moved the appointment of a Committee to revise the Tariff. He said the Tariff must

be revised before it could be made applicable to both Colonies, he would like to see one, of that description, which would not only protect our agricultural and other products, but encourage our growing trade with the Sound and other parts. He would not propose an increase of the Tariff which would entail additional expense in collecting, and tend to the encouragement of smuggling; but he would propose that the Country should have a policy and that policy must not mix up free-trade with protection; let it be once known that we possess such a policy and people will be induced to come and live with us. The motion was carried and Committee appointed.

Hon. Mr. Pemberton moved an address asking for Returns of fines and seizures in the Customs Department, from 1860, to 1866, inclusive, stating how appropriated.

Hon. Mr. Pemberton withdrew his resolution in regard to the Assay Office.

COMMITTEE OF SUPPLY.

Hon. Mr. O'Reilly in the Chair. *Treasurer's Department*.—\$4,820, passed being a reduction of \$200, on the item for stationary &c.

Assay and refinery Office.—Full amount \$3,350, passed and the disposal of the Department left to the Governor.

Auditor General.—The full amount of \$5,250, for this Department was passed.

Chief Commissioner.—\$6,310, passed in full.

Customs Department.—\$11,221, passed in full.

Council adjourned until Saturday at 11 o'clock.

COLD SNAP.—A sudden change took place in the weather on Wednesday night. Snow fell to a depth of a few inches, and the nights have been frosty.

A telegram was received from Quesnelmouth yesterday, stating that the mercury fell 38 degrees below zero. It is highly probable that mining operations will have been somewhat impeded. The snow has mostly disappeared here, but the cold continues unabated, and some floating ice was observed on the river yesterday.

THE LEGISLATIVE COUNCIL meets at 11 a.m. to-day, when the consideration of the Estimates will be resumed. The discussion on several items yesterday was very animated, and it became obvious that several of the Island members were determined to bring the affairs of the Colony to a dead-lock if possible. They were defeated, however, by large majorities in every attempt.

EXPRESSES FOR THE INTERIOR.—Immediately after the arrival of the Eastern mail, Dietz & Nelson will dispatch an up-country Express; Mr. Ronalds, the Kootenay Expressman, will also start out for that mining camp, and the Government will dispatch a mail for Big Bend.

HOLIDAY.—Owing to yesterday being a holiday (the anniversary of the birth of Washington) with our American friends, no business was done in the telegraphic department, so that we did not receive our usual dispatch last evening.

PARTY AT GOVERNMENT HOUSE.—A dinner and ball were given at Government House last evening. The invitations to the Ball were numerous, and the attendance large.

THE MAIL STEAMER.—Up to going to Press the arrival of the mail steamer at Victoria had not been telegraphed. It is probable she will arrive there in the course of to-day.

"ANTI-ARGUS" vs "ARGUS."

To the Editor of the British Columbian.

SIR,—A letter signed "Anti-Argus" appeared in our local paper on the 15th January, pitching into your correspondent "Argus" for being guilty of the unpardonable impertinence of pointing out Mr. Spalding as one of the officials who could well be spared, in order to a reduction of the expense of the Government.

I need hardly tell you that this "Anti-Argus" is very intimately connected with the personal identity of Mr. Spalding. You will probably have guessed as much.

Without pretending to raise the editorial curtain, in order to decide the long-disputed identity of "Argus," I may say that whoever he is, he has no cause to be ashamed of his work, nor fear the consequences of such attacks as that made by "Anti-Argus." The communications from his austic and able pen, published in the columns of your paper during the past year or two, have been read with eager interest on this creek, and have done much towards giving the *Columbian* the influence and reputation it possesses as an independent paper and a bold and formidable enemy of extravagance and misrule; although I must tell you that the people here think you a wee bit partial to "Stump-town."

It is impossible to suppose that the writings of "Argus" have not had more or less weight with the obdurate "powers that be;" and that, if we get retrenchment this session, your correspondent will not be entitled to a share of the credit. Of this, however, I feel certain that when he singled out Mr. Spalding as one whose services could be spared without much loss to the country, he "hit the right nail on the head." In this opinion I will be supported by the people at Quesnelmouth as well as on this Creek. Whatever the officials may say of "Argus," I can promise him a right jolly reception whoever he is, should he find it convenient to visit Cariboo, and throw off his disguise. Pursue your independent course, Mr. "Argus," and do not be turned aside by the clattering of a Jackdaw.

A CARIBOOTER.

Williams Creek, Feb. 2d, 1867.

LEGISLATION IN REFERENCE TO INDIANS.

To the Editor of the British Columbian.

As Governor Seymour has, in his speech at the opening of our Legislature, advocated the application of the Indian Liquor Law, formerly in force on the mainland, to the whole Colony; and as you have always supported and defended the operations of that law, which is no less christian and humane than enlightened and British in its character, permit me to occupy a little of your space with a few remarks *en passant* of this deeply interesting subject. You are perhaps aware that altho' the Executive of the former Government of this Island, was professedly in favour of the Indian Liquor Law, yet many of its officials winked at its open and disgraceful violation, and in their supposed wisdom, treated the enactment with dignified indifference; declaring that its provisions were utterly inoperative and futile—although the law was never fully enforced—thus effectually ignoring its existence, and bringing contempt upon the law they were paid to enforce. One of our judicial authorities, at the time of some Indian disturbances a few years ago, declared "that although disapproving of the practice of selling liquor to Indians, yet he believed that such would be the improvement of the Indians in a few years, as the result of Christian teaching by our missionaries (C) that they would be able, like their white brethren, to go up to the bar of a saloon and take their glass of liquor without endangering the safety of any one?" or words to that effect. Had this astute logician and judge said, "Let the Indians have all the liquor they want, and in a few years they will all die off and we'll have no further trouble with them," he would have been more consistent with himself. But what has been the result of this culpable indifference and disregard of the interests of the Indians by our officials? Why, Sir, it is notorious that whiskey selling to Indians is carried on to an unlimited extent in this place, and has been so for a long time past, although our constable has tried to bring offenders to justice. There is a well-known whiskey-mill on the outskirts of this town, where Indians get liquor regularly, either wholesale in 5 gallon tins or retail by the bottle! The natural consequence is that the Indians are demoralized fearfully, and murder, cutting and wounding, and almost every other vicious act prevails in their encampments.

Will not our Legislature second the efforts of our Government by enacting that the former Indian Liquor Law of the British Columbia be the law of the United Colony? We hope they will. Let our Indian population see that we care for their welfare, so far at least as to put down this nefarious and accursed traffic, which is a disgrace to our name and nation. We hope too that further justice will be done the Indians, by allowing Indian evidence to be taken, as it is an easy matter for a magistrate to ascertain the character of an Indian witness. And by all means let there be due protection given to Indian graves. Common decency alone would dictate this.

I have one other subject to mention in connection with our aboriginal population; that is, the buying and selling of Indian women by white men! Well might we blush for our boasted civilization, to say nothing of our christianity, in having the necessity for mentioning such a thing! This infamous practice has been in vogue here for many years, and that under the eyes of our magistrates, viz: the buying of Indian women, and girls (some scarcely in their teens) by white men, and the selling of them, and putting them away whenever they think fit. It would be superfluous to add anything condemnatory of it, as every right-minded person must hold it in utter abhorrence. However, to give you an idea of the impunity with which the practice is carried on here, I select one case out of many which I could give—Some years ago a white man living here, purchased a Nanaimo Indian woman for \$20, and has since cohabited with her, like many others, in the most open and shameless manner. But recently some

misunderstanding arose between them and the woman returns to the Indian camp, there to be taken possession of by a young man (Indian) who had, however, first of all to put away his own wife, to whom he had only recently been married by the Missionary.

With the numerous examples of white men, who ought to know and act better, who could judge the Indian with severity?

But the white man hears of the whereabouts of the woman, and goes with a club in his hand, on the sabbath, to the house of the young man at the camp, and demands ten blankets for his woman! The young man, frightened at the appearance of the club, complies by paying the demanded price!

Legislation in behalf of the Indians as we have recommended, has never failed when properly enforced, the lying assertions of the Victoria *Chronicle* to the contrary, notwithstanding. You, Sir, can bear witness that in Canada, one of our most important colonies, such legislation has proved most successful.

SPECIAL DISPATCH TO THE "BRITISH COLUMBIAN."

EUROPEAN.

LONDON, Feb. 19.—No armed Fenians have been captured in Kerry County, but all escaped. The peasantry are perfectly willing to give intelligence, but decline to assist in the arrest of their countrymen. Three British ships are at anchor in Kilmore River, to awe the people into obedience.

Earl Derby, first Lord of the Treasury, says officially that all alarm has passed away. The peasantry are loyal. The Government will treat the prisoners justly but severely. The Irish Secretary, Lord Naas, says no new design is apprehended; only 120 men were engaged in the revolt. Notwithstanding these denials, the Government is still sending troops, and the Lancashire Guards and others depart immediately.

POINT DE GALLE, Ceylon, Feb. 16.—We have news, received from Hong Kong by steamer that the Pacific Mail Steamship *Colorado* arrived all right at that port on the 31st of Jan'y. Having left San Francisco on the 14th, and Yokohama on the 23d.

LONDON, Feb. 18.—(Evening.) The cause of the Fenian outbreak is buried in obscurity; some say it was caused by the arrest of the American Capt. Moriarty; others that his prompt arrest alone prevented a general outbreak. The information first came through an anonymous note to the servant of Earl Kenmore, stating that a rising was planned in Kilmaree. Last night constables were sent out and they met a wagon in which they found Moriarty, who was taken prisoner; on searching his person they found letters confirming the assertions of the note. A policeman, named Duggan, was sent to Callicrean to warn the police. A party of rebels caught him, and found the papers which he refused to give up; he attempted to escape, when they fired, wounding him badly. As far as known he was the only person hurt. The police got news of the trouble by another messenger and from spies among the Fenians; they were strengthened by detachments from the main-of-war Gladiolus, staying at Valentia, and saved the station from attack. One band of Fenians which got off unpursued hailed for their leader Col. O'Connor. Another band stopped the mail from Kilmaree to Callicrean, but did no violence to any one; in fact no where has life been taken or property destroyed. The Fenian plan was to attack Kilmaree and capture the place, and then march to Cork; but the immediate dispatch of troops from Cork to Kilmaree by Gen. Bates, and the celerity of Col. Howard's movements defeated the whole plot. No armed men were captured. O'Connor and staff are said to have reached a Fenian vessel in Deggel Bay.

Thirty-four suspected persons were arrested at Dublin yesterday.

Head-centre Murphy, and Colonel Lower, Healy and Johnson have been arrested at Limerick. No papers were found on their persons nor at their lodgings.

The alarm caused by these events is about over and the excitement is rapidly subsiding.

EASTERN STATES.

CHICAGO, Feb. 19.—The Senate passed a Bill to establish Assay offices at Portland, Oregon, Boise City and Helena. The Bill appropriates \$75,000. The President has signed the Bill in relation to the Ocean Mail service between San Francisco and Portland.

NEW YORK, Feb. 18.—The Fenians profess to believe that fighting is going on, and are working with energy to send aid. Mayor Hoffman has consented to speak at a great demonstration which is to take place on Wednesday evening. Col. Roberts states that if any practical movement of formidable warlike character has commenced, there will be another raid by forces which he is at the head of, and they will furnish all the aid in their

power to render it successful. Meanwhile the Irish under his command are preparing for another campaign against Canada, which promises to be formidable.

NEW YORK, Feb. 19.—The Fenians here are still sanguine of the success of a movement in Ireland; the latest discouraging news gave them but a slight shock.

CHICAGO, Feb. 19.—Another snow storm is prevailing to-day, six inches have fallen, and it is still snowing and drifting.

HOLLOWAY'S OINTMENT AND PILLS.—Additional testimony.—For the cure of coughs, colds, sweats, and incipient consumption, this excellent Ointment, rubbed upon the back and chest, aided by the internal use of Holloway's purifying Pills, stands unrivalled. Mr. J. Leonard, of Benbulbin Grange, Sligo, writes: "Sorry, sorry I am I did not use your Ointment and Pills in January last. The wondrous change they effected on me after one week's trial astonishes everyone, and encourages me to proceed till they have entirely cured my disease." This plainly expresses the power possessed by Holloway's remedies in checking the course of those chest disorders which, when slighted or improperly treated, entail much suffering and end unfavorably.

TOYS AND FANCY GOODS.—C. C. Clark and Co. having made large additions of the above Goods to their stock, any one wishing to make a present would do well to give them a call, as they have a great variety of nice, neat and natty articles of vertu which are useful, and at the same time will please the eye and adorn a table or mantel-shelf.

CURE IS AT HAND!
HOLLOWAY'S OINTMENT
Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.
If this powerful Ointment be well rubbed into the parts affected, all skin diseases will be speedily overcome. It acts by repulsion, but repulsion is the very essence of cure, and operates not locally only, but constitutionally purifying the whole system, neutralizing all depraved humors, and selecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are so prepared as to act in unison with it, facilitating and confirming the progress of the disease.

Diphtheria, Ulcerated Sore Throat and Quinsy.
The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cures have been so remarkable, speedy and numerous, that these Ointment and Pills are more easily cured by these medicines, than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.
In these complaints, the Ointment should be used like a charm, providing it is very effectively rubbed over the regions of the kidneys, which it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Bad Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.
In such cases the Ointment operates simply and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been cleansed with lukewarm water. The purifying and curative powers of this marvellous Ointment have never failed. Any old sore, wound, or ulcer, if rubbed with this Ointment, will be cured in a few days, its action is wonderful. (Glandular swellings may soon be reduced by following the printed directions.)

The Action of the Heart, Dropsy.
The last named disease is commonly preceded by irregular action of the heart, and difficult respiration; which symptoms are always severe, and ever go from bad to worse, unless proper means of cure are resorted to. Holloway's unrivalled Ointment and Pills the dropsical patient will ever find successful. The present relief derived from the use of these remedies is marvellously quick, and perseverance in the application of this famous Ointment, and the Pills, will ensure a permanent cure. The dropsical full varieties, and the sufferer finds all the oppressive symptoms daily declining, till natural health returns.

Gout and Rheumatism.
May be cured with the greatest certainty by large quantities of the Ointment be well worked into the complaint, and the perspiration done for some time. It is no uncommon thing for the skin only, it must be got into the system. Take as many Pills nightly as will act on the bowels during the 24 hours; reduce the use of coffee, and all stimulants. When these complaints are leaving the system, the violence of the complaint frequently seems to increase.

Indiscretion of Yoni.
Sores, ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all round the complaint, and the perspiration done for some time. It is no uncommon thing for the skin only, it must be got into the system. Take as many Pills nightly as will act on the bowels during the 24 hours; reduce the use of coffee, and all stimulants. When these complaints are leaving the system, the violence of the complaint frequently seems to increase.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Chapped hands,	Scalds,
Bad Breasts,	Contracted and Sore Nipples,	
Burns,	Stiff Joints,	Sore Throats,
Bunions,	Elephantiasis,	Skin Diseases,
Bite of Wasp or Flea,	Fistulas,	Scoury,
and Sand-fles,	Gout,	Sore Heads,
Cold-hays,	Glandular Swellings,	Tumors,
Clotting of Blood,	Lunatic,	Wounds,
Corns (soft),	Piles,	Yaws,
Cancers,	Phlegm,	
Chilblains,	Rheumatism,	

Sold at the establishment of Professor HOLLOWAY, 224, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—*Small Pot.*, 2s. 6d., 6d., 1s., 2s., and 3s., each Pot. 2s. There is a considerable saving by taking the larger sizes.

HOLLOWAY'S PILLS

To Purify the Blood.
These Pills have been placed by the common consent of mankind at the head of all remedies for removing obnoxious poisons from the blood, and cleansing all the tissues of the body. They have saved thousands of our fellow-men from falling a sacrifice to the effects of dyspepsia, dysentery, diarrhoea, constipation, liver complaints, &c., &c., if attacked by any of these diseases, excessive weakness and debility, the want of increasing organic energy and vitality, are restored and reinvigorated with vigor and healthful action in every organ throughout the system, by the restorative and expelling influence of this medicine.
Female Complaints.
All disorders of the uterus, and diseases in which the peritoneum is the seat of inflammation, whether arising from a cold, or from a more or less violent action of the system, may be cured by the use of these Pills. They are perfectly safe, and may be taken at any time, and in any quantity. The sufferer regains a healthy state of the system, and is enabled to perform all the duties of life with vigor and health. Indigestion with languor and want of energy, is cured by the use of these Pills. When taking these Pills, the Bowels are kept open, and the system is purified. The Pills are taken on the right side under the ribs, and you will at once experience a change for the better in your digestion, spirits, appetite, strength, and more. The improvement, though it may be gradual, will be thorough and lasting.
DROPSY.
The efficacy of Holloway's Pills is beyond all praise. They act with such peculiar effect upon the system, that the fluids arising from this disorder are absorbed, and carried off, and prevented from further accumulation.
